

ALTARO

Office365 BACKUP

Altaro Office 365 Backup is an annual subscription program that enables you to back up and restore all your Office 365 mailboxes – emails, attachments, contacts and calendars – through an online console, giving you the ability to centrally manage all your mailbox backups. Your Office 365 mailboxes are conveniently backed up to Altaro's Microsoft Azure infrastructure.

Back up your Office 365 mailboxes

As Microsoft doesn't provide native backup options, Altaro enables you to back up and restore your Office 365 mailboxes with ease.

One all-inclusive fee

Your subscription includes backups, storage, support and access to a central management console for one or more years (you choose!).

Scalability

Minimum annual starting subscription that includes up to 10 mailboxes. You can scale to tens of thousands of mailboxes.

Hassle-free storage

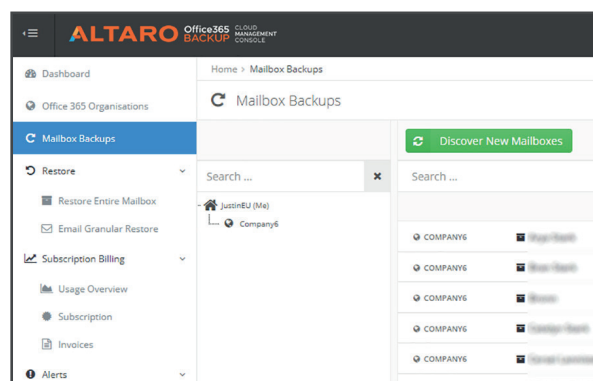

Your Office 365 mailbox backups are automatically saved to Altaro's secure cloud backup location hosted on Microsoft Azure Infrastructure.

With Altaro Office 365 Backup, you can back up and restore all your organization's Office 365 mailboxes through an annual or multi-year subscription. And you can centrally manage and monitor them your backups through Altaro's cloud-based management console.

Altaro Office 365 Backup automatically backs up Office 365 mailboxes several times per day and saves them to a secure cloud backup location on Altaro's Microsoft Azure infrastructure.

Benefits of the Altaro Office 365 Backup subscription program

- **Hassle-free backup and storage:** Benefit from the ease and convenience of backing up your Office 365 emails, attachments, contacts and calendars to Altaro's robust, secure Microsoft Azure infrastructure.
- **Easily restore mail items:** Restore misplaced, deleted, damaged or destroyed mail items. Access various restore options both for entire mailboxes and for granular restore of selected mail items.
- **Centralized management and searches:** Manage and monitor all your organization's Office 365 mailbox backups through a single online console. This also expedites mailbox backup searches.
- **Unbeatable value:** Pricing from just €396 for a 1-year starter pack, including 10 mailboxes. Volume discounts apply, making it even more cost-effective as you scale to tens of thousands of mailboxes. Includes 24/7 support.

Why do I need a backup solution for my Office 365 mailboxes?

There's a common misconception that Microsoft fully backs up Office 365 data as part of the subscription, but this is not the case.

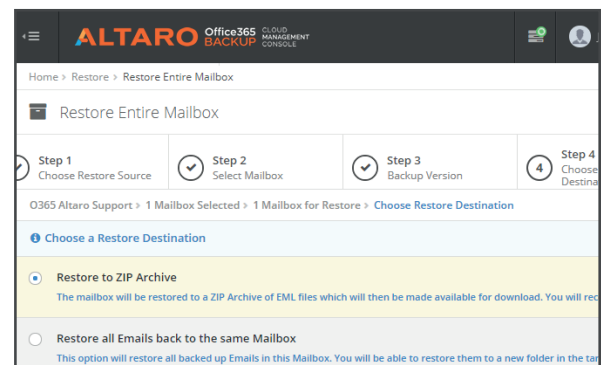

- **Microsoft doesn't provide native options to back up Office 365 mailboxes** - Microsoft is responsible for providing the necessary infrastructure and ensuring Office 365 works, but it's your responsibility to protect your Office 365 data.
- **Microsoft cannot help with unexpected data loss or damage** - Having a solid backup solution in place ensures that even if mailbox items disappear from the network or are rendered useless, you have access to a backed-up copy, eliminating problems or repercussions that could arise from the missing data.
- **Problems with accessing and searching email data** - Without a single backup location for a company's mailboxes, this data cannot be protected and stored centrally for easy access, searching and recovery.

That's why you need to back up your Office 365 mailboxes.

How Altaro Office 365 backup helps you

As Microsoft does not offer its subscribers Office 365 backup and recovery services, you need your own reliable setup to deal with unexpected data loss or damage. Altaro provides the backup and recovery solution you need, giving you peace of mind should your Office 365 mailboxes be lost or damaged.

- **Office 365 mailbox backups:** Automatically backed up several times a day - simply set it and forget it, while enjoying peace of mind thanks to a low recovery point objective (RPO) in case of data loss or damage.
- **Fast and simple mailbox recovery:** Various restore options, for entire mailboxes as well as granular restore of selected mail items, such as restoring back to the same mailbox.
- **Sturdy backup storage:** You don't need to set up your own backup storage servers as your Office 365 mailbox backups are automatically saved to a secure cloud backup location managed by Altaro.
- **Ease of access:** By backing up all a company's mailboxes into one location, this data can be managed, monitored, protected and stored centrally, for easy access, searching and recovery.
- **Great value:** For an all-inclusive annual or multi-year subscription, you get Office 365 backups, storage, management console access and 24/7 support with a call response of less than 30 seconds.
