Technician's License

Portable backup and recovery for machine maintenance

IT maintenance always contains an element of risk. The most experienced technicians will know all too well that changes can sometimes have unanticipated effects and consequences.

The Macrium Reflect Technician's License mitigates those risks by making the Macrium Reflect backup portable. This means technicians can wield the power of Macrium Reflect on a USB stick that can be used to target PCs online and offline, without ever having to install the software on a machine.

Containing powerful features for rapid restoration and recovery, as well as ReDeploy technology that makes it easy to restore to dissimilar hardware, Macrium Technician's License is a valuable tool in the IT technician's armoury.

> "It was great having Macrium as a comfort blanket and I could be sure that, should I need to, I could get back any data that has been lost. I can dig around to my heart's content without worrying!"

Portable
Carry Macrium Reflect on a USB stick.

Fast
Restore an image or recover a failed system quickly.

Safe
Protect machines without ever installing Macrium Reflect.

Features

ReDeploy

Move a system disk to new hardware.

Rapid Delta Restore

Restore data in a fraction of the time.

File and folder backup and restoration

Restore specific documents quickly.

Fix boot problems

Fix non-booting machines using rescue media.

How to purchase Technician's License

Talk to your sales representative to purchase a Technician's License.

If you want to use Macrium Reflect to deploy an image across multiple workstations or servers, Deployment Kit might be a better option. It extends the Technician's License so it can be used by 5 different team members.

System requirements and compatibility

- Reflect will work on Win XP / Server 2K3 and later.
- Appropriate OS level service packs and hotfixes may be required for installation on some Windows versions.
- Some features unavailable on Win7 and earlier.
- Standalone install on Vista (Server 2K8) 64 bit requires specific attention.
- See Macrium Knowledge Base for details.

Macrium Software
It's our business to protect your data

Macrium Software provides comprehensive backup and DR solutions for home or businesses which are used worldwide to protect valuable data and operating systems.
